

**Thames River Basin
Partnership Quarterly
Meeting**

Tuesday, July 15, 2014
9:30 AM to Noon
Project Oceanology
1084 Shennecossett Rd
Groton, CT 06340

Meeting Agenda

Welcome and Introductions

Special Presentation: Juliana Barrett (CT Sea Grant) will provide an overview of the new Connecticut Institute for Resilience and Climate Adaptation (CIRCA). The goal of CIRCA is to increase the resilience and sustainability of vulnerable communities in Connecticut to the growing impacts of climate change on the natural, built, and human environments. This goal will be accomplished by bringing together the world-class research and outreach capabilities of the University of Connecticut (UConn) with the extensive practical experience of the Connecticut Department of Energy and Environmental Protection (DEEP) to create and disseminate practical and sustainable strategies to enhance the resilience of the built environment while protecting natural ecosystems.
