MEETING AGENDA

Welcome and Introductions!

Special Presentation: The TRBP summer meeting will feature a special presentation from Justin Richardson, Assistant Professor in the Department of Earth, Geographic, and Climate Sciences at UMASS Amherst. He spent a good amount of time over the past few years digging holes, sampling sediments, and helping students collect water samples in the Thames Watershed from Norwich CT up to Oxford MA and he is prepared to give us a summary of his findings. The official title of his talk is “Understanding spatial and temporal transport of toxic metals and P in soils, sediments, and waters across the Thames River Watershed”.
